Yours truly,

GEM SINGLE WHEEL HOE AND CULTIVATOR, \$3.75

Gem Double Wheel Hoe

Same as illustration, except that it has two wheels, which allow it to work both sides at once.

Price \$5.00.

"PLANET JR." No. 4 Combined Hill Dropping Seeder and Single Wheel Hoe.

This is exactly the same style of seeder as No. 3 "Planet Jr." Hill Dropper. It is smaller in capacity, though still of good size, holding two quarts. It drops in hills at 4, 6, 8, 12 and 24 inches apart and in drills any thickness, handling the smallest paper of seed perfectly, and is simple, durable and very light running. Throws out of gear instantly by simply raising the handles. The drill is detached and the tool frame substituted by moving but one bolt. It then becomes one of the most admirable Single Wheel Hoes of the "Planet Jr." family.

Price complete, \$10.50.
As a drill only, \$8.50.

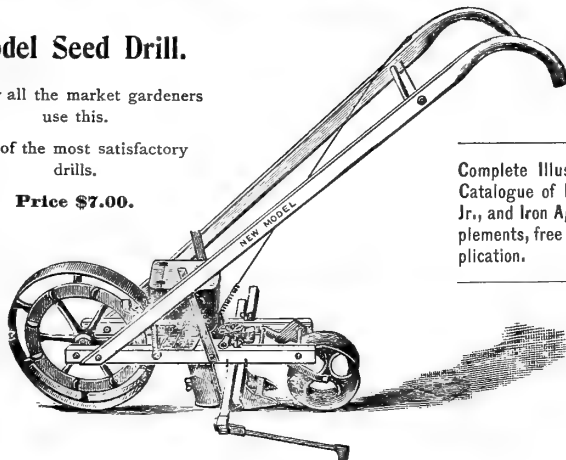

No. 3 Drill
same as above but has a larger capacity, etc. **Price, \$10.50.**

The "Planet, Jr." No. 12 Double Wheel Hoe.

The "Planet, Jr." Double Wheel Hoe will straddle plants eighteen inches high, and finish rows from six to eighteen inches apart at one passage. The wheels are only ten inches high, as a high wheel is wrong for a Wheel Hoe, since the wheels are simply depth regulators, not load carriers.

Probably no other cultivating machine is so widely known as the "Planet Jr." Combined Horse Hoe and cultivator. It is so strongly built as to withstand incredible strain, yet it is light and easy to handle. Every part is perfected to make the tool comprehensive to the intelligent farmer, who knows the best is always the cheapest

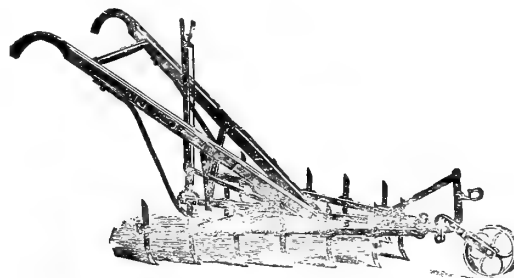

"PLANET JR." Harrow and Cultivator.

Price, Plain \$5.30, with Wheel, \$6.40, Complete \$8.00.

This tool has rapidly grown into favor with farmers, market gardeners and strawberry growers. It has a high frame and the chisel-shaped teeth cut an inch wide each. The foot lever pulverizer is a capital addition for preparing ground for the seed drill or for plant setting, and controls the depth of the rear teeth. Hand levers regulate both width and depth while in motion; it contracts to 12 inches and expands to 32 inches. It cultivates deep without throwing dirt upon the plants, and the smooth round-throated teeth turn strawberry runners without injuring them. For cutting strawberry runners we make a special attachment, consisting of a ten-inch flat steel disc mounted on an outrigger. Strawberry Runner Cutter Attachment extra \$1.60.

Price \$4.00 Each

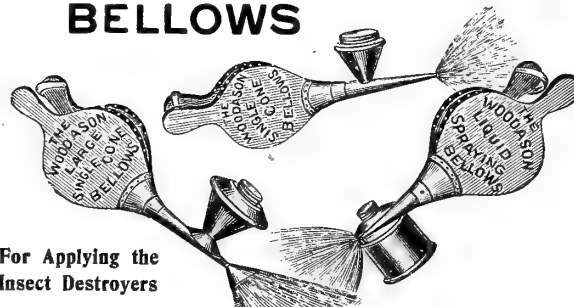

This Sulphur Blower has no equal for applying sulphur to the foliage in rose-houses. It does the work quickly and perfectly, the distribution of the sulphur being so even that every leaf receives its due proportion, and none being

wasted, thus making it more economical than the bellows.

The blower will also distribute with equal facility and thoroughness, Tobacco-Dust, Slug Shot, Lime, or any other powdery substance used in greenhouses. It is a great labor saver, as a 200-foot rose-house can be sulphured in less than five minutes.

It is easily handled, is strong and durable, and is guaranteed for ten years.

None Succeeds Like "SUCCESS" The New Pink Carnation

ALL OTHER VARIETIES OUT-BLOOMED BY THIS TREMENDOUS PRODUCER
OF FINE COMMERCIAL FLOWERS.

Most Popular Shade of a Popular Color.

DESCRIPTION OF "SUCCESS"

Color, light pink, shade of La France rose, without a trace of blue or purple. Strong and rapid growing plants, producing stiff stemmed flowers of large size, scarcely ever splitting calyx. Tremendous bloomers all the season.

Brief History of "SUCCESS" An old maxim says "Nothing Succeeds Like Success" We have been in the Carnation business, both wholesale and retail, for over twenty-five years and during that time we have found no variety that would succeed in bringing the good gold coin of the realm into our coffers like this pink seedling.

We thought to keep it to ourselves, so well did we appreciate its prowess, but later events proved such a course to be folly.

Urged by growers who have seen the seedling on our tables we place it on the market, doubting not that it will achieve national fame. We call it "Success" believing that nothing in the carnation line will succeed like it.

Why "Success" Succeeds

"SUCCESS" is without doubt, the freest blooming Carnation in America to-day. Grown for five years, side by side with over sixty of the best standard varieties, it has, by actual count produced 35 per cent more perfect flowers during each season than any other variety. Couple this with its popular color, size of bloom, superb keeping qualities, continual productiveness and remarkable freedom from disease and you have a Carnation of the first order. That is "SUCCESS"

"SUCCESS" is an unexcelled summer bloomer, in fact, surpassing during that season its great record of winter productiveness. Owing to its strong, stiff stems it does well in the field where artificial supports are not used.

ROOTED CUTTINGS \$1.50 per dozen; \$2.50 per twenty five; \$8.00 per hundred; \$70.00 per thousand. Quotations on larger quantities furnished on application. Orders filled in strict rotation.

TERMS—Cash with order from unknown parties,

JOHN G. SHOLL,

Dept. C.

BURLINGTON, N. J.

REMEMBER: We do not wish "Success" to compete for size of bloom, with the new varieties producing enormous flowers, few and far between. Our claim is—surpassing productiveness of fine, large, commercial flowers.
